<p><u>Summer Tote pattern</u> From Lazy Girl Designs Sug. Retail: \$9</p>	<p>Summer Tote is constructed by fusing two layers of cottons together to create a canvas-like fabric with wonderful drape and body. Two half yard cuts of fabric compose the body of the bag. One half yard of thicker fabrics such as upholstery, vinyl, pre-quilted, home dec, can be substituted for the cover/lining/fusible web. Please use thin fabrics for the handles and pockets. No quilting required. No batting required. Full-color instructions with step-by-step photographs.</p>
<p><u>Fusible Web</u> Steam-A-Seam 2 (SAS2) From The Warm Company Sug. Retail: \$6.09/yd for the 18" wide roll. (Generally, SAS2 is about a penny per square inch regardless of the width/size offered.)</p>	<p>Pattern requires <u>two fat quarters</u> of fusible web. Many quilt shops offer the SAS2 on a roll of 12", 18", or 24" wide. <u>For 12" wide, get 1 3/4 yds.</u> (The 12" width is too narrow and you'll have to piece this in order make the project.) <u>For 18" wide, get 1 1/4 yds.</u> <u>For 24" wide, get 1 yard.</u> <u>Important:</u> Do not fold or crease the fusible. Creased areas will be un-useable. Roll loosely and hold with a rubber band.</p>
